

FASTest™

Automated QA & Regression Testing

Paragon's desktop QA and regression testing tool, FASTest, offers fast, accurate, complete testing of issuer and acquirer processing for a variety of ISO 8583 and non-ISO formats, and for testing transactions, card types and terminals for an ATM or POS network.

Customers rely on FASTest for:

- Pre-certification Testing with Switches
- Testing Enhancements to Host Software
- Testing Connections to Credit or Debit Card Processors
- Unit and Regression Testing When Adding ATM or POS Terminals
